Miele
IMMER BESSER

Introducing the New
W1 T1 series

Fashion That
Never Fades

Perfect Cleaning Results for Every Style

Every article of clothing you have in your collection is a reflection of your style and personality - the warm and gentle caress of the softest fabrics delight you in every occasion and the dazzling array of colours enhance your mood for the festivities. You want to relive the moments over and over again.

We strive to preserve the integrity of your collection. Nothing pleases us more than fabrics retaining their original beauty, colours that stay vibrant wash after wash and whites that remain immaculate, untouched by time.

With Miele Laundry Care, Fashion Never Fades.

<http://w1.miele.sg>

OUR COMMITMENT TO QUALITY

Miele aims to bring you the best possible products. Each and every appliance is robustly constructed to guarantee maximum reliability and durability for up to 20 years. To ensure that Miele machines will stand the test of time and continually provide unbeatable performance, rigorous tests are run on them in our laboratories before full production commences, and all functions, electrical and electronic components are thoroughly tested on the production floor before they leave our factory. This ensures that the beauty of your clothes stay.

German engineered and tested to the equivalent of 20 years usage.

Washing Machines

Unbreakable cast iron cradle. Indestructible drum bearings and axle. These are part of our signature design for over 100 years. Improving on our best sees a patented honeycomb drum with a space frame construction. Intent on bringing you the perfect blend of beauty and functionality, Miele washing machines are drum-lit, with an LED display on various models.

- 10,000 hours** – We run Cottons 95°C programme continuously for over 10,000 hours – that is equivalent to 5 washes a week for 20 years.
- 60,000 times** – We test the hinge and door lock by opening and closing the door 60,000 times, 30,000 times of which are at extremely high force. That's equivalent to opening and closing the door once a day for 164 years!
- 50,000 tests** – We subject the control panel to 50,000 switch tests to ensure that the buttons will function as good as new whether in 5, 10 or 20 years.

Tumble Dryers

Miele's own durable Direct Enamel coating guarantees a lifetime of beauty, ensuring that surfaces look as good as the first day you take it home, year after year. Our fully electronic tumble dryers boast a high-capacity honeycomb drum with lighting and automatic humidity sensors that protect your expensive garments from over-drying.

- 7,500 hours** – We run the Cottons Normal programme continuously for over 7,500 hours – that's equivalent to 5 drying cycles a week for 20 years.

Silent Operation

Miele takes every aspect of your life into consideration. Which is why we have incorporated an effective sound-proofing package into our washing machines. The low-noise drive system, encapsulated floor tray, insulating mats and horizontally sculptured side panels all work together to ensure very low noise levels in wash and spin cycles, even under unfavourable installation conditions, with over-sized loads or at very high speeds.

THE MIELE **W1** WASHING MACHINES

A New World Class Generation

Our W1 range of washing machines feature Miele's latest revolutionary technologies such as the PowerWash, TwinDos and CapDos systems, delivering the best washing performance.

POWERWASH

Exclusive to Miele

Miele's PowerWash System revolutionises washing. It achieves a cleaning performance at a speed that has never been achieved before in laundry care. The PowerWash System comprises of two superior performance characteristics, the Intensive Flow and the QuickPowerWash programmes. The intelligent principle of Intensive Flow ensures outstanding wash performance. The efficiency of the detergent is fully utilised and the wash performance is increased by 10%*, thanks to the sophisticated suds cycle. With the QuickPowerWash programme, your laundry is washed in less than one hour in without compromising cleaning results.

Intensive Flow

With Intensive Flow, Miele utilises a potential that other washing machines neglect: a suds solution is sprayed many times over onto the laundry increasing the effective use of detergent by approximately 10%. This technology also benefits the environment by reducing electricity consumption, and the appliances work 20% more economically than required for an A+++ energy efficiency rating.

QuickPowerWash

The QuickPowerWash programme washes up to 5 kg of laundry in less than 1 hour. Far from being merely a curtailed programme, QuickPowerWash is a full cycle offering impressive cleaning.

* Confirmed by independent experts: the renowned Wfk institute for Applied Research in Krefeld, Germany

TWINDOS

Exclusive to Miele

TwinDos offers two automatic dispensing options. You can fill liquid detergent or fabric conditioner in the supplied containers, or use Miele's 2-Phase-System that washes white and coloured laundry perfectly clean. For maximum efficiency, TwinDos dispenses UltraPhase 1 and UltraPhase 2 at appropriate times during the washing process. The 2-Phase-System achieves the highest level of wash performance for whites or coloureds, and offers the best liquid detergent system available on the market at the touch of a button.

Select the intensity of the cleaning process according to the degree of soiling - light, normal or heavy, and an automatic sensor determines the volume of wash and calculates the exact amount of detergent and detergent enhancer to release.

Miele 2-Phase-System

Enjoy cleaner and brighter clothing after every wash. Miele's 2-Phase-System washes coloureds and whites perfectly with liquid detergents automatically dispensed at the perfect time during the washing process.

Extraordinary Efficiency

Take pride in owning an eco-friendly appliance. Miele's TwinDos system is certified by the Öko-Institut to deliver approximately 30% in detergent savings and a 30% reduction in greenhouse effect.

CAPDOSING

Exclusive to Miele

Conveniently portioned dispensing of single-use capsules. Between special detergents, fabric conditioners, a reproofing agent and a booster, you will no longer need to bring your textiles that require special treatment to a dry cleaner, saving you time and money. Elevate your washing experience to an unprecedented new level of customisation with CapDos - a range of single-use specialist detergents in capsule form.

10 types of Miele Capsules for special applications

- 5 special detergents (Sport, Down, Outdoor, WoolCare, SilkCare)
- 3 fabric conditioners (Aqua, Nature, Cocoon)
- A reproofing agent
- Booster as an additive which deals with persistent soiling

Simple dispensing for perfect results.

SOFTSTEAM HONEYCOMB DRUM¹⁾ WITH PRE-IRONING

Exclusive to Miele

The unique hexagon surface pattern of the Miele honeycomb drum allows a thin film of water to be created between the drum and the laundry that gently cushions the laundry from the drum. This allows the garments to glide gently, protecting the fibres perfectly. Together with the smooth polished honeycomb drum, there is minimal mechanical strain on your laundry.

Miele's Honeycomb drum ensures the best condition for the fibres of your clothes.

Damaged fibres as a result of prolonged washing from normal washing machines.

WfK Authenticated

The fact that laundry receives optimum gentle care in the Miele honeycomb drum is authenticated by the WfK Institute for Laundry Research in Germany.

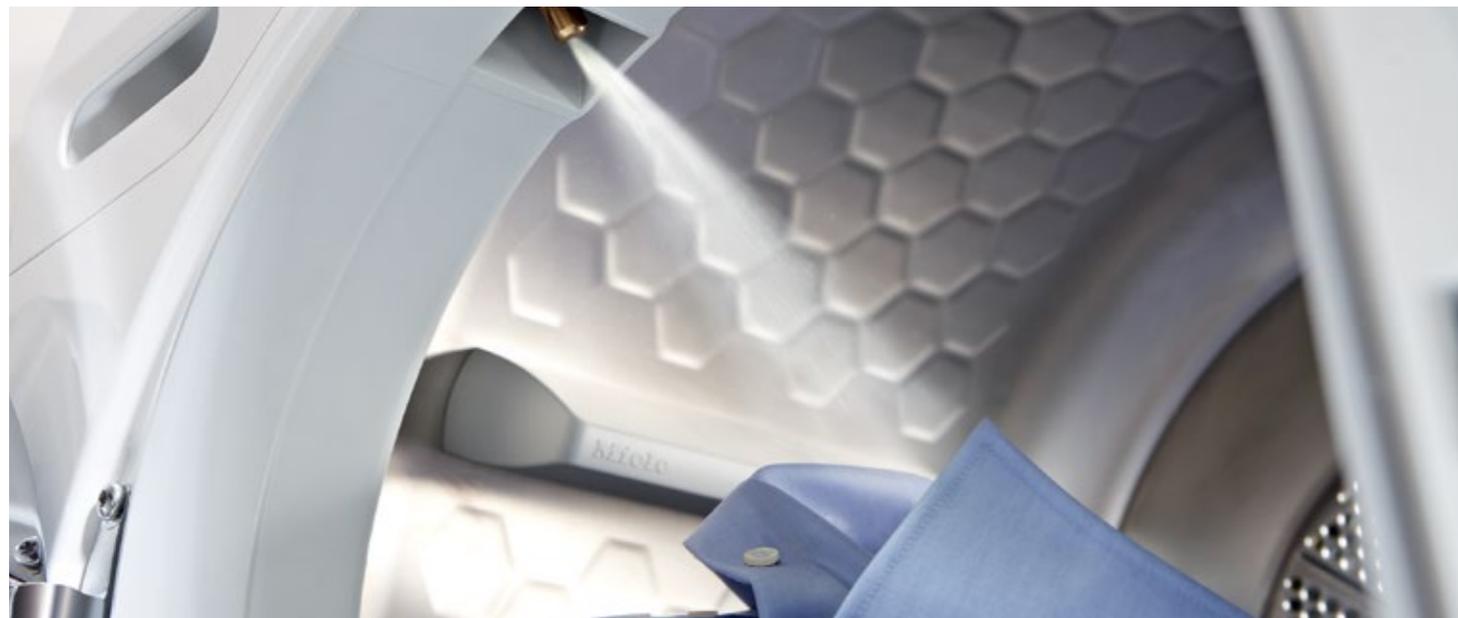

¹⁾ European patent EP 0 935 687 B1

THE MIELE T1 TUMBLE DRYERS

The perfect companion to the new W1 washing machine by Miele

Our latest T1 range of tumble dryers equipped with PerfectDry, FragranceDos and Honeycomb Drum systems, define the new standard for drying. Enjoy dried, freshly scented, soft and fluffy pieces of clothing, always.

STEAMFINISH

Miele's Steam Smoothing programme ensures that ironing is much easier and faster - or not even required. Water is sprayed into the honeycomb drum at the beginning of the drying process, creating a fine cloud of airborne water droplets that are heated by the drying air. The developing steam penetrates the textiles and visibly smoothes the items.

FRAGRANCEDOS

Exclusive to Miele

Enjoy long-lasting and well-balanced fragrances for your laundry with Miele tumble dryers. The new Miele fragrances add your favourite scents to your laundry during the drying process resulting in bouncy and beautifully fragrant laundry. Each flacon contains all-natural, laundry-safe fragrance that lasts up to 50 dry cycles, depending on the intensity of the scent selected. The scent will linger for up to four weeks on laundered garments and linen when stored within a closet or drawer. Choose your favourite scent from five fragrances and determine its intensity by simply turning the flacon.

Fragrance Flacons

Enjoy freshly laundered garments scented with your personal fragrance.

French Perfumers

Developed in collaboration with renowned parfumeurs MANE in Provence, France.

Exquisite Scents

Choose from five beautiful fragrances – Rose, Orient, Aqua, Cocoon and Nature.

MIELE HONEYCOMB DRUM

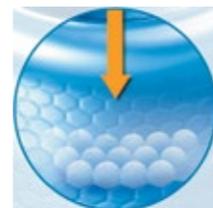

Exclusive to Miele

The patented¹⁾ T1 honeycomb drum features larger hexagons than previous models. The unique surface pattern creates a system of air pockets that softly catch and cushion your laundry as it rises and falls, thus minimizing friction and reducing the risk of snagging and tangling. Together with useful special programmes and intelligent functions such as PerfectDry, optimum laundry care results are always delivered.

Laundry care with an air cushion effect

Your laundry floats softly on air cushions that form in the depressions of the sculpted honeycomb structure for a far gentler and less creased drying result, making ironing a lot easier.

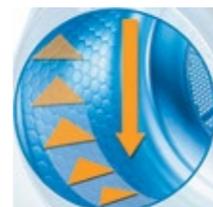

Miele honeycomb drum

Traditional tumble dryer drum

Laundry care with a traction effect

Thanks to the unique honeycomb structure, laundry is drawn higher up the rotating drum, allowing it to hover longer in the warm air and reducing the effects of mechanical handling.

Miele honeycomb drum

Traditional tumble dryer drum

¹⁾ European patent EP 1 293 594 B1

PERFECT DRY

Exclusive to Miele

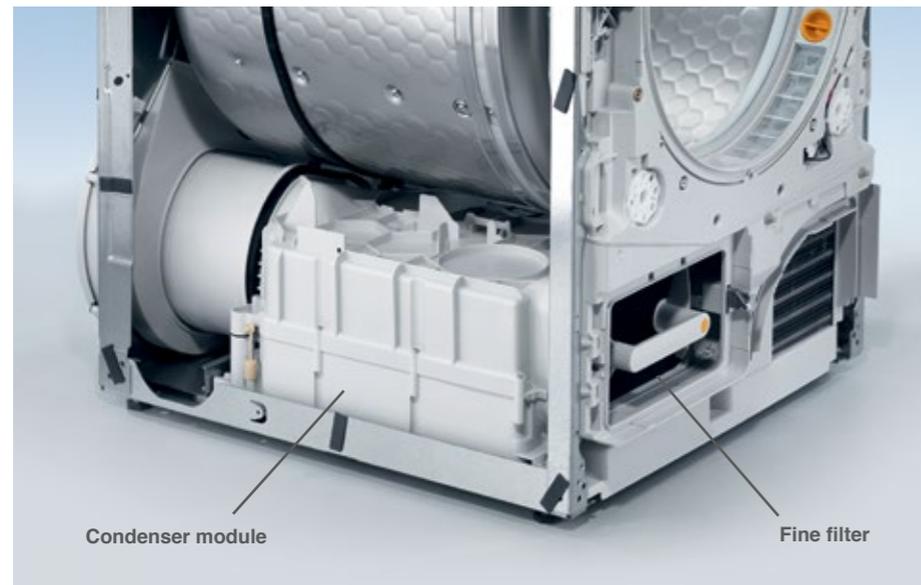

The patented¹⁾ PerfectDry system detects the wetness of a given load via the mineral sensors, and adjusts the duration of the drying cycle accordingly. This ensures that your laundry is dried perfectly, resulting in a reduced need for ironing and up to 12% in time and energy savings while gently caring for your fabric.

¹⁾ German patent DE 19.719.661 C2

HEAT-PUMP TUMBLE DRYERS

Miele utilises increasingly popular heat-pump technology in our tumble dryers. They are environmentally friendly, efficient in their use of energy and cost efficient to run.

Energy efficiency with heat-pump technology

Miele's heat-pump tumble dryers use a refrigerant that is condensed by a compressor and passed through a closed circuit into a heat exchanger unit where heat exchange with the circulating drying air takes place.

This transfer of energy is rapid and very efficient, thus, energy consumption and running costs are about 46% lower than those on a conventional Miele condenser tumble dryer.

Multi-stage filter system

There are fluff filters in the door and in the door opening, as well as fine filters to trap any fluff, hair and detergent residues that may have gotten through the surfaces of the fluff filters. There is also a fine filter in front of the heat exchanger for added protection.

Gentle laundry care

The drying temperature has been reduced by about 25% (compared to a conventional Miele tumble dryer) for all drying programmes, ensuring excellent care for all your laundry. Miele's heat-pump dryer is extremely quiet and gives off a negligible amount of condensate back into the room, making it ideal for use in a 'living' kitchen environment.

9KG SERIES
Large-capacity Laundry Care
for the whole family

Key Product Features

9KG **W1** WASHING MACHINE

Powerwash

Improves previous cleaning performance by 10% with intensive drenching of laundry and lower energy consumption.

Exclusive to Miele

TwinDos

A two-phase detergent system that automatically dispenses detergent and fabric conditioner at the most appropriate point for the best result.

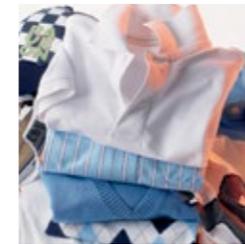

Exclusive to Miele

CapDos

Single portioned dispensing of special detergents, fabric conditioner or booster capsules for gentle cleaning of specialised fabrics.

Exclusive to Miele

Mixed Load Programme

Enjoy substantial savings with this special purpose programme. You can wash up to 19 different garments at the same time.

Exclusive to Miele

Stains Option

Get excellent stain removal results with adjustable Miele wash programmes to target the specific types of stains. Users can select up to 3 stain types from a selection of 23 per wash cycle.

Exclusive to Miele

EcoFeedback

Energy consumption and fluff filter condition are indicated to give you the option of adapting your personal behavioural patterns to maximise energy-saving potential.

ProfiEco Motor

Experience efficient and quiet performance for years to come. Miele ProfiEco motors are powerful, economical and maintenance-free.

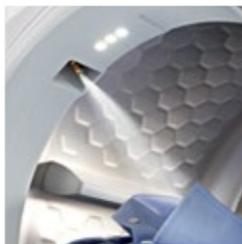

ProgrammeManager

Five programme options (Intensive, Eco, Extra Gentle, Extra Quiet and AllergoWash) to meet your personal requirements at the touch of a button.

Exclusive to Miele

Key Product Features

9KG T1 TUMBLE DRYER

SteamFinish

A built-in steam programme that smoothens out creases, reducing the need for ironing.

PerfectDry

PerfectDry takes the mineral content of your water into account and accurately adjusts the drying process ensuring that your laundry is not too dry or too wet.

Exclusive to Miele

FragranceDos

Infuses your laundry with an expanded range of five exquisite scents through convenient fragrances that last up to 50 dry cycles.

Exclusive to Miele

EcoFeedback

Energy consumption and fluff filter condition are indicated to give you the option of adapting your personal behavioural patterns to maximise energy-saving potential.

Exclusive to Miele

ProfiEco Motor

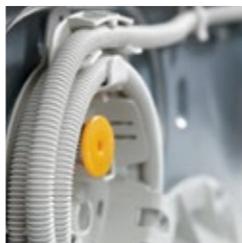

Experience efficient and quiet performance for years to come. Miele ProfiEco motors are powerful, economical and maintenance-free.

Mixed Load Programme

Enjoy substantial savings with this special purpose programme. You can dry up to 19 different garments at the same time.

Exclusive to Miele

Integrated condensate drainage¹⁾

Condensate can be automatically drained off via a hose directly into the sink or a U-tube, providing ultimate convenience during the drying process.

Exclusive to Miele

Maintenance-free heat exchanger

A two-ply combination filter in the heat pump dryers protects the heat exchanger, removing the need for cleaning.

A New Level of Fabric Care

The Miele CareCollection range is designed to work harmoniously with your current Miele appliances, providing maximum performance for impressive laundry results. This extensive range of high-efficiency, high-concentration detergents and cleaning agents means you can use less product for even better results.

MIELE CARE COLLECTION

Customised Fabric Care

The Care Collection represents the quality and innovation Miele has been producing for the past 115 years including the best liquid detergents, UltraPhase 1 and 2, Caps – special capsules of laundry agents for specific fabrics, and fragrance flacons for a long-lasting fresh fresh fragrance.

UltraPhase 1 and 2 cartridges 1.5L

2-component detergent for whites and coloureds.

- For brilliant colours and spotlessly white laundry
- Excellent stain removal properties even at low temperatures
- No overdosing thanks to automatic dispensing
- Highly effective for 37 (UltraPhase 1) and/or 50 (UltraPhase 2) wash loads

10-pack Caps Outdoor +

Everything you need for your outdoor wear.

- 8 Outdoor and 2 Reproofing Caps
- The Outdoor Cap cleans and retains the brilliance of colours
- The Reproofing Cap for protection against water, wind and a dirt-repellent finish

10-pack Caps WoolCare

For wool and delicates.

- Special care factor based on wheat protein and with colour-protection formula
- Special ingredients for protection against felting
- Best wash results even at low temperatures

10-pack Caps Booster

The solution for persistent stains.

- For brilliant wash results even at low temperatures
- Helps to fight persistent stains such as grease or fruit stains
- Suitable for white and coloured laundry

10-pack Caps Sport

Perfect for breathable sportswear.

- Unpleasant smells are neutralised thanks to odour absorber
- Cleans and retains the brilliance of colours
- Retains the shape of textiles. Also suitable for fleece

10-pack Caps Fabric conditioners

Particularly good for terry towelling.

- For soft, bouncy laundry
- Fresh, natural fragrance

- AQUA – Pure and thorough cleanliness with a fresh scent
- COCOON – For a feeling of peace and harmony
- NATURE – A floral aroma and a natural, well-balanced fragrance

10-pack Caps Collection

The perfect addition for special applications. The mixed Caps box gives you the opportunity to familiarise yourself with the products.

- Detergent Caps: Sport, Down, Outdoor, WoolCare and SilkCare
- Care Caps: Fabric conditioners AQUA, NATURE and COCOON and Reproofing agent
- Additive Cap: Booster for persistent soiling
- No overdosing thanks to exact portions. For 10 wash loads.

10-pack Caps Home

The perfect Cap mix for those household textiles which require special treatment.

- 3 WoolCare and 2 SilkCare Caps for all delicates
- 2 Down Caps for pillows or down-filled textiles
- 3 Booster Caps for persistent soiling

Purchase Miele Care Collection at www.webshop.miele.sg

BRILLIANT COLOURS

Vibrant colours stay vibrant, wash after wash.

Ultracolour liquid

A unique formula with advanced brighteners that effectively removes stains and protect vibrant colours, leaving clothing with a gentle, soft feel.

COMFORTING TOUCH

Keep fabrics soft to the touch for years to come.

Fabric conditioner

Gives laundry a gentle, pleasant feel with a dash of freshness while preventing static cling in the tumble dryer.

PROTECTIVE CARE

Guard your fabrics against the weather.

Reproofing agent

A post-wash fabric protector that shields garments and textiles made from synthetics or natural fibers from the penetration of wind and water. It is especially suitable for tablecloths, sportswear and hiking gear.

THOROUGHLY DELICATE

The more delicate it is, the more gentle the approach, especially when it comes to your skin.

WoolCare for Delicates detergent

Specially formulated for the gentle, yet thorough, cleaning and care of delicate textiles containing wool, silks or other unique fabric blends.

Down detergent

A special purpose detergent for effective cleaning of products containing eiderdown, without removing natural oils.

Sportswear detergent

Washes gently yet thoroughly, and retains the colour of special sportswear articles.

Outdoor detergent

Mild cleaning formula that removes stains while maintaining membrane characteristics, especially for hiking gear and garments with water- and wind-proof membranes such as GORE-TEX®.

DAZZLING PURITY

Protect the purity of white or light-coloured fabrics.

UltraWhite powder

This highly concentrated multi-purpose detergent thoroughly removes stains and keeps white or light-coloured fabrics looking brilliant.

Sensitive-care powder detergent

A powerful, deep cleansing formula that contains a special and mild fragrance, which does not irritate sensitive skin, or trigger allergic reactions.

FRAGRANCE FLACON

Fresh fragrances developed in collaboration with renowned parfumeurs MANE for endearing scents on your garments lasting up to 4 weeks.

- Rose – Delicate and subtle waft of fresh roses
- Orient – Alluring mystique of combined Oriental scents
- Aqua – Fresh, modern and sophisticated
- Cocoon – Comforting and harmonious in its simplicity
- Nature – Freshness and mellowness, perfectly balanced

Purchase Miele Care Collection at www.webshop.miele.sg

With the Miele W1 range of washing machines and T1 range of tumble dryers, you can rest assured that your clothes are being taken care of in the most effective and efficient way, becoming the treasured investments you cannot live without.

Since 1899

With 115 years of heritage and experience, Miele has zealously pursued a philosophy of Immer Besser or "Forever Better." Behind every product is a steadfast commitment to quality and innovation. It is this dedication that has won the trust of consumers the world over and made Miele a global premium brand of luxury domestic appliances.

Please register your warranty with Miele to enjoy 2 years warranty on your appliance.
