

**Miele**

Miele Kitchen Experience  
Explore the origin of extraordinary.

Miele. Immer Besser.

# Welcome to Miele

## IMMER BESSER (forever better) - our pledge

When our two great-grandfathers founded the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

So they decided to be better than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being "Immer Besser" throughout the past 119 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees, and neighbours. Buying a Miele appliance is also an environmentally friendly decision. We ensure this by using methods of production that save resources as well as by producing appliances which set new standards in terms of their consumption of electricity, water, and detergent – and save you money at the same time.\*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

*Markus Miele*      *Reinhard Zinkann*

Dr Markus Miele

Dr Reinhard Zinkann

# IMMER BESSER

Our brand promise

**There are many good reasons for choosing Miele.**

**Here are just six of them.**

Since the company was founded in 1899, Miele has remained true to its “Immer besser” brand promise. This means that we will do all that we can to be forever better than our competitors and forever better than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

## **Miele quality**

For more than 100 years it has been a proven adage that you can rely on Miele. We are the only manufacturer in our branch of industry to test products such as our washing machines, tumble dryers, dishwashers, and ovens to the equivalent of 20 years' use. We can therefore offer you unique reliability and peace of mind. This explains why Miele customers around the world remain true to their brand and recommend Miele to others. Looking to the future, we will not entertain any compromises when it comes to the reliability and durability of our appliances.

### **Miele technology**

Miele stands for excellent results combined with minimum energy consumption. This applies to the hygienic and gentle care of your laundry, your flooring, and your crockery as well as when conjuring up exquisite culinary delights. The key to this is a wealth of innovative features available only from Miele. This is borne out by numerous first places in leading product tests conducted around the world.

### **Miele convenience**

Whether they feature a conventional rotary switch, discreet sensor controls, or a high-resolution touch display just like on your smartphone: Miele appliances are easy and fun to use. Add to this a multitude of convenient and reliable automatic programmes and a great love of detail – success is guaranteed – on board both laundry and kitchen appliances. Make life easier for yourself with Miele!

### **Miele design**

Miele believes in clean lines and timeless elegance. Nowhere else will you find a comparable range of built-in kitchen appliances, with consistency in design lines and colour options, to suit the most diverse of interior designs and kitchen furniture fronts. Great care is taken to coordinate appliance design across the range. Whatever the style of your kitchen: Miele is the perfect match.

### **Miele service**

Miele customers enjoy preferential treatment: thanks to our fast and efficient after-sales service operation which has been voted best in its branch of industry many times over. If you need personalised instructions on appliance use or professional cleaning of your appliances, Miele will gladly make a home visit. We will always be there for you. That's a promise!

### **The Miele brand**

In many countries, Miele is the most coveted brand in its branch of industry. In its German home market, Miele was even voted 'best brand ever' across all product branches. And the ownership of products from such a brand reveals much about its users: Miele customers have high expectations for the performance and the environmental friendliness of their domestic appliances. People who buy Miele demonstrate a keen sense of quality and style.

# Our philosophy:

## Design for the best quality of life

Would you like to design your dream kitchen yourself? A kitchen that meets your every need? With Generation 6000, we are proud to offer you a solution for any kitchen environment. One design line in selected colours and materials that integrate perfectly into every lifestyle and interior design.

Pure, linear designs epitomise, now more than ever, modern living and today's lifestyle. With Miele ArtLine, we are able to offer the first designer range of built-in kitchen appliances for completely flush installation.

We believe that design encompasses the outer appearance of an object as well as the experience of using it. This is the principle on which our built-in kitchen appliances are based. Our designers and engineers are continually gathering knowledge and inspiration from the international markets in which Miele operates – and their know-how puts them at the top of their class.

The results are products which, in terms of design, materials and functionality, match each other perfectly across the entire product range, allowing the new generation to take design homogeneity onto a completely new level. Discover perfection for yourself on the following pages.

## combination options

## intuitive operation

Tangible materials

# Miele ArtLine

Minimalism at its best

Innovative technology, exclusive and timeless – this is what drives Miele's product design and development teams. The Miele ArtLine design line has taken PureLine to the next level with this latest generation of built-in appliances. The pure elegance of the handleless fronts is an interior designer's dream in a class of its own. See for yourself the first truly handleless kitchen. That's Miele. That's "Immer besser".

# Miele ArtLine in Graphite grey.

The latest colour choice for your kitchen.

Brilliant white

Obsidian black

Graphite grey

Graphite grey is the latest colour trend in designer kitchens. With dark and cool accents it emanates pure elegance and is perfectly suited to this understated design. It takes the edge off hard lines and lends an unmistakable ambience to the kitchen.

The whole kitchen. Not a handle in sight.

A wide range of kitchen appliances in this style – perfectly matched to your needs.

**Miele ovens**

take advantage of moisture for optimum results when baking and roasting with Moisture plus.

**Miele microwave combination ovens**

save up to 30 % in time by combining conventional cooking functions with microwave power.

**Miele steam combination ovens**

gentle cooking with steam for better tasting, nutritious food.

**Miele gourmet warming drawers**

with low temperature cooking there's more to this appliance than just a warming drawer.

**Miele vacuum-sealing drawers**

with three vacuum-sealing settings, food is prepared to perfection for sous vide cooking.

# Handleless perfection.

Miele kitchen appliances for the perfect premium kitchen.

Everything from the same manufacturer: in addition to Miele ArtLine appliances, a wide range of other premium kitchen appliances are available to complete your kitchen. For perfection down to the smallest detail – from coffee machines to hobs:

#### **Coffee machines**

Our fully automatic bean-to-cup coffee machines are experts when it comes to perfect coffee and they fit seamlessly into a run of ArtLine built-in appliances.

#### **Refrigerators and freezers**

Built-in refrigeration appliances are designed to keep your groceries fresh in an efficient and well organised way. An impressive choice of appliances awaits you.

#### **Dishwashers**

A simple knock on the door is all it takes to open our fully integrated Knock2Open dishwashers.

#### **Cooker hoods**

Even our cooker hoods and extractors come in a wide range of styles to create a completely harmonious and perfectly integrated kitchen design.

#### **Hobs**

Our electric and induction hobs are available for flush-fit installation and are operated using flush sensor controls.

# PureLine

## Space for the essentials

**PureLine** is understated. It can easily be integrated as a design element into a modern kitchen where the focus is on a minimalist range of materials. The high proportion of glass in the PureLine design creates a calm aesthetic. Horizontal stainless-steel elements and an eye-catching handle which almost appears to be floating in front of jet black glass elements are characteristic features of these appliances.

Full-glass appliances in Obsidian black, Havana brown and Brilliant white follow the puristic approach of this design line perfectly.

# PureLine

Stainless steel/CleanSteel

Jet black glass creates an atmospheric background; the eye-catching stainless-steel handle becomes a prominent element. Both materials have been skilfully combined to complement one another perfectly. The horizontal design dominates allowing several appliances to complement each other perfectly.

# PureLine

## Obsidian black

PureLine in Obsidian black conveys a superior aesthetic design. The appliance fronts are made solely of glass and simplicity brings perfection. Light and shadows create reflections. This gives the appliance surfaces depth and elegance.

# PureLine

## Brilliant white

PureLine in Brilliant white provides a dramatic contrast in coloured kitchens or integrates seamlessly into white kitchens, embodying minimalism and exclusiveness. This design emits a touch of lightness and leaves room for exciting combinations.

# PureLine

## Havana brown

A modern interpretation of a classic topic: Havana brown completes the PureLine colour world. These are the perfect built-in kitchen appliances for people with a clear sense of harmony and nature.

# Miele Signature

## A unique range of handle designs for your kitchen

Give your kitchen a touch of individuality and choose an exclusive handle design from one of the four handle collections. Miele has created a range of special appliance handles for the PureLine design line.

Exceptional materials and excellent workmanship turn every handle into a genuine work of art. Indulge yourself in this inspirational visual and tactile experience,

where your personal taste is all that matters. Four handle designs are on offer – perfectly complementing the PureLine appliances in Stainless steel/CleanSteel, Obsidian black, Brilliant white and Havana brown.

These handles are also available as accessories for use on ovens, steam ovens, microwave ovens and warming drawers from the Generation 6000 range of built-in appliances.

### **Gold**

The “Gold” handle design exudes a touch of luxury. The matt surface finish and the warm golden colour add a special touch to the handle and provide timeless elegance. The appliances become true works of art in your kitchen.

### **Nature**

Genuine natural materials give the “Nature” handle design a character of its own. Depending on the appliance colour, high-quality wood or slate inserts are embedded into the metal profile of the handle.

### **Vitro**

The “Vitro” handle design is characterised by pure elegance with clean lines. A narrow glass strip in the colour of the appliance is inserted into the striking metal profile of the handle.

### **Classic**

The “Classic” handle design has a subtle and unobtrusive presence in the same colour as the appliance.

# PureLine

## Combination options

This completely homogeneous design of the appliance fronts across the entire product family creates a harmonious overall impression, whether the appliances are installed in a vertical or a horizontal array. The control panels are the same size for all appliances. The appliances can be combined in a number of ways to suit your needs: in a horizontal row at eye level, vertically to utilise the full height of the room, in a block or arranged as a T-shape.

Precise controls

Intuitive operation

# M Touch

## Fingertip controls

Achieving results quickly: the innovative M Touch display is fast, easy to use and self-explanatory. The appliances can be operated quickly and intuitively by touching or swiping the clear text touch screen. Many functions can be selected with a single touch of a fingertip. The central display with white text and symbols on a black background ensures perfect visibility of information. Where user prompts are required, information is presented in colour.

Direct selection makes navigating easy

Brilliant visual appearance thanks to high resolution

Individual settings can be saved

**Miele**

# Uniform controls

## More user interfaces

All appliances in this generation are equipped with controls based on a common underlying logic. For example, the display is always centrally located – regardless of which user interface you choose. All user interfaces feature innovative display technology which excels with its clarity, longevity, high resolution and a high-end appeal in all its detail. The array of sensors is the central element of all user interfaces. It displays functions which are always available to you.

### SensorTronic

A 5-line TFT display with sensor controls to the side presents menu content clearly. This user interface is particularly easy to use. Information is displayed as clear text in the relevant local language.

### DirectSensor

The required function is selected with a single touch of one of the symbols positioned to the left of the display. The touch element to the right of the display is used for navigating through the different levels. Information is displayed as clear text in the relevant local language.

### DirectControl

The required function is selected by turning the control dial on the left hand side. Settings within the 4-line text display, such as temperature or time, are selected using the rotary control on the right-hand side and confirmed with the sensor controls. Information is displayed as clear text in the relevant local language.

### EasyControl

The control elements are designed in a similar way to DirectControl. The only difference is that status information, such as temperature and time settings, appears in a 7-segment LC display.

### EasySensor

The minimalistic 7-segment display shows temperature and cooking time. Settings are selected and confirmed using the integrated sensor controls.

# The product family

## Variety for individualists

What characterises the Miele product family is the consistency of design with uniformly designed fronts and control panels on appliances. This allows virtually all appliances to be combined with each other for a harmonious overall appearance. Inside the appliances you will find advanced professional technology and functions. Discover your favourites among the product highlights in the following pages.

### Ovens

When the aroma of freshly baked biscuits wafts through the home, who can resist the temptation? Discover why Miele ovens are so special: you will find modern designs that stand the test of time, functions that make everyday tasks easy and quality that lasts for decades.

Page 42-43

### Compact microwave combination ovens

Especially for the new generation of modern cooks, we recommend a microwave combination oven for contemporary cooking with all its convenience features. It is a full fledged oven with various operating modes and a powerful microwave oven in a single 45 cm high niche.

Page 44-45

### Steam ovens

Purchasing a Miele steam oven is the start of a long-lasting partnership which promises enjoyment, healthy food and an abundance of cooking experiences. A Miele steam oven is a real all-rounder and makes the perfect partner for an oven and a hob. Making individual side dishes or a complete meal – the steam oven can cope with all this and more.

Page 46-47

## Steam combination ovens

Nowadays, dining is so much more than simply satisfying a basic need. It is no longer just the type of food that is being cooked and eaten that matters, but the way food is prepared and consumed that is important. Enjoy food and live healthily with the Miele steam combination oven. It meets all the demands of modern healthy nutrition. Improve your wellbeing with light, delicious meals and enjoy tasty food with a clear conscience.

Page 48-49

## Steam ovens with microwave

Miele built-in kitchen appliances are the first choice whenever the highest standards are demanded of kitchen equipment. They combine innovation, user convenience and aesthetic design. The steam oven with microwave from Miele is a world first and reinforces your range of kitchen appliances. If you enjoy cooking and like trying out new things, you will love cooking in the new steam oven with microwave. It gives you a choice: you can either steam delicious food using the steam function or microwave it using the microwave function.

Page 50-51

## Microwave ovens

Microwave ovens have earned their place in the kitchen. Delicious meals, snacks and frozen products can be made in next to no time: with a modern design that stands the test of time, functions that make everyday tasks easier and quality that lasts for years.

Page 52-53

# The product family

Variety for individualists

## Drawers

Miele drawers are true all-rounders. Not only do they bring your cups, plates and bowls to the required temperature in the shortest possible time, they are also ideal food warmers. The low temperature cooking mode is an exceptional feature. This function can be used to prepare perfect dishes without any stress. Miele drawers are ideal in every situation – for cooking a roast using the low temperature cooking function, for keeping food warm on plates or for an espresso or cappuccino in pre-heated cups.

Page 54-55

## Vacuum-sealing drawers

Perfect conditions for food storage or preparing food for sous vide cooking. The vacuum-sealing drawer features a wide variety of applications. Is there anything better than conjuring up a meal with minimum effort which lives up to the picture in the cookbook? The vacuum-sealing drawer is ideal for preparing food for sous vide cooking. Portioning, storing and preparing food for culinary perfection.

Page 56-57

## Induction hobs

Cooking with electricity has a long and distinguished history. The initial euphoria of being able to cook with electricity has developed over the years into the technologically advanced appliances we know today. Miele induction hobs have always been at the forefront of progress to meet the highest demands regarding ease of use and versatility.

Page 58-61

## CombiSets

For budding chefs with special demands, Miele's CombiSet range offers the perfect appliances to suit their needs. Professional chefs who work in commercial kitchens are familiar with a Tepan Yaki, barbecue grill and deep fryer. With Miele, these appliances are also available to chefs at home who want to be more adventurous in their everyday cooking. This makes it possible to cook and serve gourmet cuisine you can be proud of in the comfort of your home.

Page 62-65

## Gas hobs

Cooking with gas is the preferred option for many professional chefs. Temperatures can be controlled very precisely and changed in an instant. Cooking with gas evokes images of cooking over an open fire, which for many people is an emotional experience. In today's modern and fast-paced lifestyle, cooking with gas feels homely and traditional.

Page 66-67

## Cooker hoods

Optimum extraction of steam and odours, perfectly adapted to the size of the room and personal requirements. Whether modern, classic or unusual: Miele offers a broad range of very modern cooker hoods with the legendary Miele quality. No matter which Miele cooker hood you choose, you will enjoy intuitive operation, reliable functions and outstanding quality right down to the very last detail.

Page 68-69

# The product family

Variety for individualists

## Coffee machines

Do you love the aroma of perfectly made coffee? Miele offers a wide range of exceptional coffee machines. There is a perfect machine for every coffee connoisseur: for the hobby barista, the milk froth fan or the lover of macchiato. Now you can enjoy your favourite drink at home as well as in a café. Anytime, easily – with Miele.

Page 70-71

## Refrigerators, freezers and wine units

With its refrigeration appliances, Miele offers an extremely wide variety of models equipped with state-of-the-art technology and unique convenience. Every appliance is designed specifically for its purpose and to meet the highest of demands in terms of quality and durable functionality. The exceptional Miele design is instantly recognisable – high-quality materials and consistently clean lines throughout – that is Miele.

Page 72-75

## Dishwashers

Sparkling glasses and crockery brighten up a beautifully set table, delighting both the hosts and the guests. Experience how Miele dishwashers make your dishes sparkle – and put a smile on your face – with excellent cleaning results, intelligent features which make everyday work easier, and low consumption to suit both the environment and your budget.

Page 76-77

## Washing machines

Looking back to when it all started, our washing machines still display the same unbreakable cast iron cradle, drum bearings and axle that have become our signature design. Miele laundry care system covers the entire process, from washing and drying to ironing. Even the special cleaning products from Miele were developed in our own laboratories and have been perfectly formulated to match Miele appliances, offering you the best of care for everything you really love.

Page 78-79

## Tumble dryers

Life is easier with Miele's fully electronic tumble dryers. Each model boasts of a high capacity honeycomb drum with lighting and operates a range of fabric handling programmes. The installed humidity sensors automatically detect when your clothes are perfectly dried. The exclusive Miele fragrance flacons results in bouncy and beautifully fragrant laundry.

Page 80-83

## Ironers

Many textiles only get a perfect finish when they are ironed and given additional protection through mechanical and thermal treatment. Achieve the perfect finish with the Miele FashionMaster steam ironing system and Miele rotary ironers.

Page 84-87

# Miele ovens

## Product highlights\*

**Exclusive to Miele** **Moisture plus<sup>1)</sup>** Each type of food has its own specific properties. Knowing them and making the most of them is the true art of cooking. In the past, the baker held the monopoly on baking perfect bread and rolls. Now you can too: with a Miele oven with Moisture plus. Targeted bursts of steam increase the humidity in the oven and optimise the baking and cooking results of a variety of foods: soft, delicious-smelling bread with a shiny, appetising crust; bread rolls and croissants as if from the local baker; succulent, tender meat with a nicely browned crust; perfect oven bakes, delicious soufflés, and so much more.

**Exclusive to Miele** **Wireless food probe<sup>2)</sup>** No supervision necessary: the countdown indicator provides information on when meat or fish is ready.

**Exclusive to Miele** **FlexiClip runners<sup>3)</sup>** Flexible and safe: turning and basting meat outside the hot oven without the risk of getting burned.

**Automatic programmes**  
Conjure up over 100 dishes with ease: bread, cakes, or meat – fully automatically regulated food preparation.

**Special applications**  
For rarely used food preparation methods: user convenience with various special programmes such as drying fruit.

**Exclusive to Miele** **Special automatic programmes**  
Perfect results guaranteed: favourite local recipes saved as automatic programmes.

## Product highlights\*

**Exclusive to Miele** **Stainless steel oven compartment with PerfectClean finish and linen-weave pattern<sup>1)</sup>**

The compartment of the oven with microwave is made from stainless steel with a special linen-weave structure and PerfectClean finish. It is therefore less sensitive to scratching and considerably easier to clean than a conventional stainless steel oven compartment. The PerfectClean finish has excellent non-stick properties, making it hard for soiling to stick to the oven compartment during cooking.

### Microwave combination modes

Flexible and time-saving: combining microwave energy with conventional heating methods achieves time savings of up to 30 % compared to cooking without microwave power.

### Quick microwave

Full power at your fingertips: fast microwave function selection via a separate sensor.

**Exclusive to Miele** **Automatic programmes**

Conjure up over 100 dishes with ease: bread, cakes, or meat – fully automatically regulated food preparation.

### Food probe

Stress-free menu planning: the remaining time left for the programme to run can be easily viewed; supervising the process is no longer necessary.

**Exclusive to Miele** **Popcorn button**

At the touch of a button: fast and easy preparation of one packet of popcorn.

\* Features vary depending on model

# Miele steam ovens

## Product highlights\*

**Exclusive to Miele** **MultiSteam<sup>1)</sup>** Perfection to suit personal tastes – the Miele steam oven is an all-round expert and the perfect partner for an oven and a hob. As the cooking durations for steaming and boiling are identical, you do not have to change your cooking habits. You can cook starters, soup, fish, meat, vegetables, side dishes or desserts individually - or a complete menu in a single cooking process. Individual preferences for cooking results – firm or tender – can also be catered for with the Miele steam oven. Thanks to Miele's MultiSteam technology, external steam generation ensures perfect results. 8 steam inlet ports enable fast generation of steam and steam distribution, short heat-up times and uniform cooking results.

**Exclusive to Miele** **Large oven compartment and large tray size**

Use the entire depth: cooking large quantities simultaneously saves time and energy.

**Exclusive to Miele** **Automatic menu cooking** A complete menu: temperature, cooking duration and sequence in which the food is added are automatically determined with "Menu cooking".

**Easy cleaning** No limescale: thanks to the external steam generator, cleaning is quick and easy.

**Exclusive to Miele** **Special automatic programmes** Perfect results guaranteed: 5 favourite recipes saved as automatic programmes.

**Stainless steel oven interior** Professional and low-maintenance: all Miele steam oven interiors are made from stainless steel only.

## Product highlights\*

### XL oven compartment

In the spacious stainless-steel oven compartment of the appliance with TopControl operation, larger dishes such as chicken or casseroles can be cooked to perfection. The 40 cm diameter turntable offers plenty of room for different sized containers or several glasses, cups or plates at the same time, allowing easy food preparation on a larger scale.

### 40 cm turntable

Plenty of space: perfect for several glasses, cups, plates or containers of various sizes.

### LED lighting

High quality and durable: LEDs place your food in the spotlight whilst it is cooking.

### Popcorn button

At the touch of a button: it's quick and easy to make a packet of microwave popcorn.

### Quartz grill

Fast and uniform results: food is browned perfectly in a short time.

### Automatic programmes

Conjure up dishes with ease: simply select the appropriate programme and the weight of the food to be cooked – the appliance will do the rest.

\* Features vary depending on model

# Miele gourmet drawers

## Product highlights

**Exclusive to Miele** **Low temperature cooking brings out the best in any type of meat**

Low temperature cooking is a professional cooking method which top chefs use routinely. Your meat remains tender, aromatic and succulent. Aroma and nutrients are retained at a high degree. Good chefs have been using this type of cooking method to produce tender food for many years and it is becoming increasingly popular in private households. Cooking at a low temperature is a stress-free cooking method as the process does not need to be supervised and the remaining preparations can be completed without time pressure. The meat can be sliced straight after cooking. There is no need to allow the meat to rest first as the meat juices are evenly distributed.

### 4 operating modes

Multi-purpose use: for warming cups and plates, for keeping food at serving temperature or for using the slow cooking function to suit your individual requirements.

**Exclusive to Miele** **Touch control**

Simple and convenient: programme selection is via a flush touch panel which is easy to clean.

### Timer

Heat guaranteed: all built-in food warming drawers feature a 4-hour timer which switches off automatically.

### Push2open mechanism

Easy to open: slight pressure is sufficient to activate this function.

### Fully opening drawer

Simply practical: the drawer can be pulled out completely for easy loading and unloading.

# Miele vacuum-sealing drawers

## Product highlights

### Vacuum-sealing

Air, including oxygen, is extracted from the vacuum-sealing bag in the Miele vacuum-sealing drawer. This provides the ideal conditions for long-term food storage, and also for preparing it perfectly for sous-vide cooking in a steam oven. Depending on requirements, three vacuum-sealing settings are available. Setting 3 is ideal for marinated meat, whereas setting 1 is perfect for delicate foods such as berries.

### Large useable space

Suitable for small and large quantities. The useable space is sufficient for vacuum-sealing bags of maximum 250 mm x 350 mm.

### Food-safe vacuum-sealing bags

Safely stored: Miele vacuum-sealing bags are heat-resistant, airtight, and taste neutral.

### Three vacuum-sealing settings

Always the right setting: you can choose between three settings – setting 3 is ideal for meat, setting 1 for fruit.

### Variable sealing times

Perfect for every bag thickness: you can choose between three sealing settings depending on the material of the bag.

### Reusable vacuum-sealing containers

Particularly sustainable: contrary to bags, vacuum-sealing containers can be reused time and time again.

# Miele hobs

## Product highlights\*

### Con@ctivity – the automatic function for Miele hobs and cooker hoods

Thanks to the future-proof automatic Con@ctivity function, you can concentrate fully on cooking. In addition to switching the cooker hood on and off, Con@ctivity automatically adjusts the extraction power of the hood to what is happening on the hob and thereby ensures a pleasant room climate. The Con@ctivity function enables the cooker hood to communicate with the hob using RF technology. Induction hobs are equipped with Con@ctivity 2.0 (Zigbee standard). An RF stick is required for the hob; this is supplied with the cooker hood. On hobs with TempControl, Con@ctivity 2.0 works without an RF stick.

**Exclusive to Miele** **TempControl<sup>1)</sup>**  
Guaranteed perfect frying results: the temperature of the pan is kept constant and nothing can burn on.

**Exclusive to Miele** **SmartSelect White**  
Quick and intuitive: Power and frying levels can be adjusted directly for each cooking zone.

**Exclusive to Miele** **PowerFlex**  
Versatile and flexible: even large pots and pans can be heated quickly and easily.

**Exclusive to Miele** **DirectSelection Plus**  
Fast and intuitive: power levels and times can be selected for each cooking zone using the numerical display.

**Exclusive to Miele** **Stop & Go**  
So nothing will burn: With this function, all cooking zones can be reduced to power level one simultaneously.

\* Features vary depending on model  
<sup>1)</sup> EP 1704754, EP 2153698 (patented)

# Miele TwoInOne hob

## Product highlights

### Con@ctivity 2.0

With Con@ctivity 2.0, you can fully focus on the pleasure of cooking. This is because the extractor and the hob communicate with each other. The hob transmits information about its settings to the extractor's electronics which automatically adjust extraction levels. You no longer have to remember to switch the extractor off after cooking. The Miele TwoInOne hob feature Con@ctivity 2.0 as standard.

**Exclusive to Miele**

### PowerFlex induction

Unbeatably fast and versatile: the booster output of up to 7.3 kW.

**Exclusive to Miele**

### TwinBooster

Unique flexibility: induction output can be individually distributed or used for one single zone.

### Keeping warm

Food kept at serving temperature: this function controls the temperature in the pan base and prevents food from burning.

### Stop & Go

Food can no longer burn on: all cooking zones can be reduced to power setting 1 at the touch of a button.

**Exclusive to Miele**

### SmartSelect

Fast and intuitive: power and frying settings can be directly selected for each cooking zone.

# Miele CombiSets

## Product highlights\*

### Wide range of Miele CombiSets

Miele CombiSets emanate style and convenience. Despite each appliance working independently of the others, all look as if they come from the same mould. Installed next to each other, they create a uniform and elegant ensemble. A design highlight in any kitchen!

### Appliance widths

A wide range is standard: two different widths allow you to mix and match to suit your needs.

### Stainless steel frame

Uniform frame design: no matter which CombiSets units are installed, they always match each other perfectly.

### Knobs

Matching convenience: metal knobs complement the design style of the ProLine elements.

### Inclined control panel

Perfect look: the ergonomically arranged control panel simplifies operation.

### Indicators

Safe and effective: the display with up to three types of indicators.

\* Features vary depending on model

# Miele CombiSets with countertop extractor

## Product highlights

### Unimpaired, odour-free cooking

The professional looking CombiSets are combined with the cooktop extractor, representing an interesting alternative to a conventional cooktop as these products blend in seamlessly with surrounding furniture and go discretely about their work. This is suitable for installation in a run of kitchen furniture installed against a wall as well as in a cooking island.

### ECO motor

Powerful and quiet: the DC motor saves up to 70 % electricity compared with conventional motors.

### Miele CleanCover

Protection and easy cleaning: the concealed and smooth interior prevents contact with electrical components and the motor.

### Stainless steel grease filters (10-ply)

Convenient cleaning: the high-quality 10-ply metal grease filters are dishwasher-proof and extremely durable.

### Longlife AirClean filter

Efficient odour neutralisation: thanks to the durable honeycomb active charcoal unit which can be regenerated in the oven.

### Energy efficiency rating

Everything at a glance: the energy label tells you the efficiency and performance of your appliance.

# Miele gas hobs

## Product highlights\*

### Gas hobs with electronic controls

Miele gas hobs with electronic controls are equipped with features that offer added safety and convenience: QuickStart ensures rapid ignition and GasStop & ReStart ensures automatic re-ignition in the event of flame failure. Some models also feature a minute minder as well as heat and residual heat indicators.

### ComfortClean pot rests

Fast cleaning: remove the pot rests and clean them in the dishwasher. Keeps gas hobs looking good for longer.

### QuickStart

No need to press and hold the control: convenient electronic rotary controls switch the burners on easily.

### GasStop & ReStart

Safe cooking: automatic re-ignition of extinguished gas flames. Should this prove unsuccessful, the gas supply is turned off immediately.

Con@ctivity

# Miele cooker hoods

## Product highlights\*

### Con@ctivity – the automatic function for Miele cooker hoods

Achieving optimum extraction of kitchen vapours and odours – while also saving energy: a Miele cooker hood equipped with Con@ctivity does this automatically. Thanks to Miele Con@ctivity, your cooker hood can communicate with the hob. Con@ctivity transmits information gathered from the hob to the cooker hood. The cooker hood then uses this data to automatically select the correct fan setting, ensuring the optimum room climate at all times. So you can concentrate completely on cooking. You don't even have to remember to switch off the appliance. After the run-on time, the cooker hood will switch itself off automatically so you do not use any more energy than is necessary. It can also be operated manually if you prefer.

Communication between the hob and hood is established either via Zigbee (Con@ctivity 2.0) or WiFi (Con@ctivity 3.0). A large number of the cooker hoods are already fitted with both Zigbee and WiFi technology as standard. The connection type that is appropriate for the hob model is used. For Con@ctivity 2.0, an RF stick is required for the hob; this is supplied with the cooker hood. If Con@ctivity 3.0 is being used, MobileControl enables the cooker hood to be controlled via the Miele@mobile app as well.

### Energy efficiency rating

Everything at a glance: the energy label tells you the efficiency and performance of your appliance.

### Silence

Efficient and very quiet: the motor is effectively insulated with special soundproofing mats.

### Stainless steel grease filters (10-ply)

Convenient cleaning: the high-quality metal grease filters are dishwasher-proof and extremely durable.

### Miele CleanCover

Protection and easy cleaning: the smooth, enclosed surface prevents contact with electrical components and the motor.

### Miele INDIVIDUAL

Just for you: cooker hoods can be customised to suit your requirements.

\* Features vary depending on model

# Miele coffee machines

## Product highlights\*

### In perfect harmony with perfect coffee

When all components of a coffee machine synchronise so perfectly with one another that the result is not just a beverage, but instead an exquisite coffee experience, then it's a Miele. Our first-class coffee machines grind the coffee beans very gently. Intelligent brewing technology ensures that the beans can unfold their full aroma – for a perfect coffee.

### Easy to use

Smart functions: all it takes is a touch to serve a single or double dose of delicious coffee, including cup detection.

### Easy cleaning

Machine hygiene made easy: removable components and automatic cleaning processes guarantee cleanliness.

**Exclusive to Miele**

### ComfortDoor<sup>1)</sup> - door system with fully opening front

Easy access: the whole machine front can be opened wide to allow easy access to the water container, the waste container and the drip tray.

**Exclusive to Miele**

### AutoDescal<sup>2)</sup>

Say goodbye to manual descaling: the CM7500 and CM7750 descales automatically thanks to the patented AutoDescal function.

**Exclusive to Miele**

### CupSensor<sup>3)</sup>

Ideal distance: the CupSensor recognises the rim of the cup and alters the position of the central spout accordingly.

\* Features vary depending on model

<sup>1)</sup> Patent: DE 19701033C2EP 0783859B1

<sup>2)</sup> Patent: EP2705783B1, US201400060338A1

<sup>3)</sup> Patent: EP2454977B1

PerfectFresh Pro

# Miele refrigeration appliances

## Product highlights\*

### PerfectFresh

Food stays fresh for up to three times longer: the ideal storage temperature for fruit, vegetables, fish, meat and dairy products.

### **Exclusive to Miele** FlexiLight

Glare-free and unique: the adjustable LED glass shelf lighting.

### Energy efficiency

Best performance A+++: highest efficiency and top-class freshness.

### DynaCool

Uniform distribution of temperature: a ventilator ensures excellent circulation and distribution of cold air.

### **Exclusive to Miele** ComfortClean

Easy to clean: the high-quality shelves on the inside of the door can be easily cleaned in the dishwasher.

### Active AirClean Filter

Arroma retainment: the combination of active charcoal filter and chitosan effectively prevents odours.

\* Features vary depending on model

**Miele**

# Miele wine units

## Product highlights\*

**Exclusive to Miele** **SommelierSet**  
Your wine unit is simply perfect for wine connoisseurs: with the unique SommelierSet exclusively from Miele. Prepare fine wines professionally for decanting. Enjoy champagne and white wine from chilled glasses. Drink perfectly conditioned wine even from opened bottles. And have all equipment you need for this always ready at hand.

### Temperature zones

Individual controls: up to three different types of wine requiring different temperatures can be stored at the same time.

### FlexiFrame

Easy to reposition: individual wooden slats can be moved to allow large wine bottles to be stored with flexibility.

### "Selector" bottle presenter

Presentation in style: the bottles appear slightly raised in the dimmed light of the wine unit.

### NoteBoard

For individual labelling: every bottle rack features a removable, magnetic strip for labelling bottles.

### Active AirClean filter

Inimitable aroma retained: the combination of active charcoal and chitosan (a natural product) effectively prevents odours.

\* Features vary depending on model

# Miele dishwashers

## Product highlights\*

### QuickPowerWash

An unbeatable combination: the QuickPowerWash programme and the perfectly tailored UltraTabs achieve the best possible cleaning and drying results on normally soiled crockery in 58 minutes. These specially developed tabs only take 2 to 3 minutes to dissolve. This means that the cleaning performance begins right at the start of the wash cycle. The result: class-A cleaning performance despite short programme times.

**Exclusive to Miele**

### Patented<sup>1)</sup> 3D+ cutlery tray

Greater flexibility: the middle section with hinged row of spikes can be lowered, offering space for large items.

### Miele basket design

Maximum flexibility and convenience: providing perfect loading conditions, positioning options for crockery and cleaning results.

### A+++ -20 %

20 % more economical than the threshold required for energy efficiency class A+++: best cleaning and drying results combined with the highest level of efficiency, thanks to EcoTech heat storage.

### Fresh water dishwashers using as little as 6.5 litres

Minimum consumption: best cleaning results combined with minimum water consumption in the Automatic programme.

**Exclusive to Miele**

### Knock2open<sup>2)</sup>

Unique: the appliance can be perfectly integrated into a handleless kitchen – the door opens automatically after 2 knocks.

\* Features vary depending on model

<sup>1)</sup> Patent: DE102008062761B3, EP2201887B1

# Miele washing machines

## Product highlights\*

**Exclusive to Miele** **TwinDos<sup>1)</sup>**  
The best liquid detergent system at the touch of a button.

Automatic dispensing with TwinDos is not only practical, but also guarantees perfect cleanliness: with UltraPhase 1 and 2 your appliance offers the best liquid detergent dispensing system. TwinDos dispenses UltraPhase 1 and 2 at the optimum time during the programme and so achieves the very best wash results. TwinDos also dispenses with such precision that you can save up to 30 % on detergent when compared to manual dispensing.

**Exclusive to Miele** **PowerWash 2.0**  
Excellent wash performance and speed combined with the highest energy efficiency for large and small loads.

**Exclusive to Miele** **QuickPowerWash<sup>2)</sup>**  
Quick and thorough: clean laundry in less than 1 hour.

**Exclusive to Miele** **SingleWash**  
Efficient solution for individual garments: A favourite blouse washed faster, more economically and gently than ever before.

**Exclusive to Miele** **CapDosing<sup>3)</sup>**  
Dispense special detergent, fabric conditioner and additives simply by using portioned capsules.

**Exclusive to Miele** **Honeycomb drum<sup>4)</sup>**  
Gentle care: the honeycomb drum has a special sculptured surface finish which allows the fabrics to glide on a thin film of water.

\* Features vary depending on model

<sup>1)</sup> Patent: EP 2 784 205

<sup>2)</sup> Tested and confirmed by wfk research institute in Germany

<sup>3)</sup> Patent: EP 2 365 120

<sup>4)</sup> Patent: EP 0 935 687

Miele T1

PPPEco

# Miele tumble dryers

## Product highlights\*

### **Exclusive to Miele** EcoDry technology

Miele EcoDry technology guarantees long-term low energy consumption and short drying times. Thanks to the effective interplay between the Miele filter system and the maintenance-free heat exchanger, fluff cannot clog up the heat exchanger, which can cause blockages and reduce power output over time.

With EcoDry, Miele heat-pump dryers constantly work economically – throughout the entire service life of the appliance.

### **Exclusive to Miele** FragranceDos<sup>1)</sup>

Freshness for all the senses: with Miele you not only have particularly soft, but also beautifully fragrant laundry.

### **Energy efficiency**

Best performance with A+++; highest efficiency, producing excellent results.

### **Heat pump technology**

Also for delicate items: drying at low temperatures is economical and very gentle on textiles.

### **Maintenance-free heat exchanger**

Good protection: a filter protects the heat exchanger so it does not require cleaning.

### **Exclusive to Miele** Perfect Dry<sup>2)</sup>

Always perfectly dried: Perfect Dry takes the mineral content of your water into account and modifies the drying process accordingly.

\* Features vary depending on model

<sup>1)</sup> Patent pending: EP 2 431 516

<sup>2)</sup> German patent: DE 19 719 661 C2

Miele WT6

Wash & Dry  
PowerWash 2.2 & TwinDos

wash & dry

# Miele washer-dryer

## Product highlights\*

**Exclusive to Miele** **TwinDos<sup>1)</sup>**  
The best liquid detergent system at the touch of a button.

Automatic dispensing with TwinDos is not only practical, but also guarantees perfect cleanliness: with UltraPhase 1 and 2 your appliance offers the best liquid detergent dispensing system.

TwinDos dispenses UltraPhase 1 and 2 at the optimum time during the programme and so achieves the very best wash results. TwinDos also dispenses with such precision that you can save up to 30 % on detergent when compared to manual dispensing.

**Exclusive to Miele** **QuickPowerWash<sup>2)</sup>**  
Time-saving care: laundry is perfectly washed and dried extremely quickly.

**Exclusive to Miele** **PowerWash 2.0**

# Miele FashionMaster steam ironing system

## Product highlights

**Exclusive to Miele** **Honeycomb soleplate<sup>1)</sup>** The patented honeycomb drum already ensures uniquely gentle treatment of laundry in Miele washing machines and tumble dryers. The same principle is also applied to the FashionMaster, making a noticeable difference compared to other systems. The unique honeycomb soleplate achieves best ironing results combined with perfect laundry care. Unlike conventional hand irons, the steam is distributed quickly and evenly along the channels between the hexagons across the entire soleplate. This creates a film of steam which allows the hand iron to glide effortlessly, but at the same time effectively, over your laundry.

### Active ironing board

Best ironing results: suction and inflation functions ensure excellent steam application and hold the textiles in place.

### Steam

More than just a puff of hot air: 4 bar steam pressure and a consistent steam output of 100 g/minute ensure professional ironing results.

### Exclusive to Miele 1-2 Lift system<sup>2)</sup>

Two easy steps to set up, requiring little or no effort at all! Ready for use in next to no time thanks to the patented 1-2 Lift system.

### Continuously variable height adjustment

Simply ergonomic: a built-in gas pressure stay brings the ironing table to the perfect working height (83 to 102 cm).

### Steamer

Easy to handle: garments on hangers such as dresses and jackets as well as curtains are gently smoothed and brought back into shape.

<sup>1)</sup> Patent: EP 2 233 632

<sup>2)</sup> Patent: EP 2 169 108

# Miele rotary ironer

## Product highlights

### Miele rotary ironer – the champion against creases and wrinkles

Ironing has never been so quick or convenient with the Miele rotary ironer. Compared to conventional ironing methods, you can save considerable effort and reduce ironing time by up to 50 %. This allows you to gain time for the nicer things in life!

### Attractively versatile

Flexible to meet all requirements: any type and size of laundry can be smoothed quickly and easily.

**Exclusive to Miele**

### Steam function

Glides particularly smoothly: twin-tank technology for fast and even steam distribution and excellent ironing results.

### High contact pressure

More pressure, better removal of creases: you would have to constantly press down on the ironing table with a force of about 7 kg to create a comparable pressure with a hand iron.

### Temperature selection to suit textiles

Gentle treatment of fibres: simply select the temperature in accordance with the care label of the textile. This ensures that your textiles stay looking good for longer.

### Ironing in a seated position

Ergonomic and strain reducing: the strain on your back is reduced, and operation using foot switches leaves both hands free.

# Sustainability – assuming responsibility

At the heart of everything we do

Responsibility for generations – there is no better way of expressing how Miele defines sustainability. For more than 119 years, we have been developing and producing high-performance and convenient domestic appliances which are unrivalled in terms of durability and dependability, resource-saving production and energy efficiency. They are made by dedicated employees, who are respected and valued. In our supply chain, we take care to comply with social and environmental standards. We maintain a cooperative dialogue with the people and institutions that participate in the activities of Miele.

This position is reaffirmed by the company's membership of the UN Global Compact sustainability initiative, the certification based on the international social standard SA8000 and the "Diversity Charter" for equal opportunities in the workforce. Certification according to ISO standards for quality, environment and energy management as well as standards for health and occupational safety offers a systematic framework for further optimisations: in terms of the environmental protection credentials of our production facilities and products and in terms of the protection of our employees. This corresponds to our guiding principle "Immer besser" (forever better) – a slogan printed on the very first appliances developed by the founding fathers.

Miele holds sustainability in the same esteem as integrity, respect and responsibility for people and our natural environment, continuity and quality awareness. As a result of all this, our company was awarded the German Sustainability Prize 2014 and the B.A.U.M. environmental awareness prize 2014.

Find out more about our commitment to sustainability at [www.miele-sustainability.com](http://www.miele-sustainability.com).

# Miele quality

## Immer besser

Miele stands for quality, innovation and internationally significant product development. Miele is a globally established premium brand and is held in high esteem. The foundation for this success was laid by founders Carl Miele and Reinhard Zinkann. With their guiding motto of being “Immer besser” (forever better), still valid to this day, they condensed the company’s corporate philosophy to the following: “Success can only be had in the long run if one is totally and utterly convinced of the quality of one’s products.” As a family-run company, Miele has always kept this promise during its more than 110-year history and, in doing so, has achieved a unique position worldwide within its branch of industry.

### **Quality**

First-class technology, exceptional functionality and the ultimate in longevity – these values define Miele products as real premium appliances. Since the company was founded, Miele has been proving its expertise with regard to perfect domestic appliances and hygiene. Miele appliances are highly reliable. This claim is endorsed by our in-house laboratory tests and ultimately over many years in your home.

# Miele service

## Your partner for all service needs

When you buy a Miele appliance, you choose longevity and the best in quality. If, however, you require any help, Miele Service can provide rapid and reliable assistance.

The quality of Miele Service is regularly checked by customer surveys and is also confirmed by independent institutes.

Miele considers perfect service to be more than simply providing expert assistance in the event of technical problems. Miele provides support from delivery and installation right through to when appliances are commissioned.

### **Proficient**

Our technicians are Miele appliance repair specialists, guaranteeing a quick and professional repair.

### **Quick and efficient**

The Miele-specific PC fault diagnostic system quickly identifies faults. 90 % of all service cases are dealt with at the first visit.

### **Reliable supply of spare parts**

Not only can you expect legendary Miele quality from original Miele spare parts, you can also rely on them to be readily available – even many years after purchasing your appliance.
