

Miele T1 tumble dryer

Gentle drying even on your most delicate garment

Honeycomb drum#

The unique hexagon surface pattern of our honeycomb drum enhances and ensures the longevity of clothes. The risk of snagging and tangling is also reduced to ensure you a peace of mind.

European patent EP 1 293 594 B1

Did you know?

Many dryers detect wetness of a load by measuring the conductivity, but conductivity can vary depends on water hardness. With Miele PerfectDry technology, the sensors record water hardness and adjust the drying process, achieving perfectly dry results.

Save time with wrinkle-free finish

SteamFinish

Miele SteamFinish is a built-in steam programme that smoothen out creases hence reducing the need for ironing. This allows you to save the time on ironing clothes and bring about more convenience.

Guaranteed – fresh smelling laundry

FragranceDos

Finish off your laundry chore with Miele FragranceDos technology. The one and only in the market that allows your clothes smelling fresh with long-lasting and all-natural laundry-safe fragrance. The intensity of the fragrance can be adjusted according to your preference and it can last up to 4 weeks.

Miele Fragrance Flacon
Miele offers 5 endearing scents for you to choose from. Rose, Orient, Aqua, Cocoon and Nature.

Some things are built to last.
Enjoy superb cleaning performance with ease.

Specialized detergents tailored for specific fabrics

CapDosing#
Miele single-dose capsule consists of a range of specialized detergents. This allows you to customize your wash according to different fabrics such as sports, down, wool etc.

European patent EP 2 365 120

Protects even your most delicate garment

Honeycomb drum#
A thin film of water is created between the honeycomb drum and laundry enabling the garments to glide gently during the wash, reducing the risk of snagging and tangling.

European patent EP 0935 687 B1

Cost effective even for small wash loads

PowerWash 2.0
The innovative double pump system achieves best cleaning results while being cost effective and energy efficient.

Did you know?

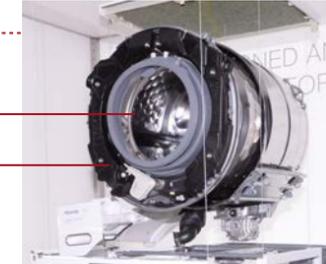

- Made in Germany**
Not only are our appliances German-engineered, all our washers are produced in our manufacturing plant in Germany.
- Assurance on quality and performance**
All Miele laundry appliances undergo stringent tests continuously for over 10,000 hours – that's equivalent to 20 years.
- Best brand award 2018**
Top 10 best company brands in Europe's most important markets.

Miele **W1** washing machine

Designed and built to last

Cast iron weights & enamel finishing
Miele washing machine uses cast iron instead of concrete as stabilizers to provide high stability and low noise level over time. Additionally, Miele is the only manufacturer to enamel the front panels of all washing machines making it scratch-proof, corrosion-proof and easy to clean.

Drum
Suds container

Corrosion free and leak-proof

Stainless-steel suds container
Miele suds container is formed from 1 piece of metal unlike the conventional plastic suds containers. This prevents expansion in high temperature washes and ensures no corrosion over the product lifecycle.

Smartest automatic detergent dispensing system in the market

TwinDos#
Miele takes pride in our automatic detergent dispensing technology best paired with our very own 2-step detergents delivering excellent results at a touch of a button. The TwinDos function detects your laundry load and carefully dispenses the ideal amount of UltraPhase 1 and UltraPhase 2. No need to worry about overdosing!
European patent EP 2 784 205

UltraPhase 1 and 2
Miele 2 component detergent for whites and coloureds. Phase 1 as a base detergent and phase 2 as enhancer.
